

ARTISTIC EMBROIDERY

With BJ Olsen

Tuesday 4th March 2025, 6-8pm
KEB Boardroom, Royal Victoria Hospital

Would you like to explore a new artistic technique? Join the artist BJ Olsen for this introduction to embroidered art. The workshop is inspired by BJ's current exhibition 'Humans of Covid-19' (currently on display on L2 RVH), where she stitches colourful scenes based on viral internet memes of people masking during the pandemic.

This workshop will explore how you can create your own embroidered artworks inspired by people and scenes around you. You'll get the chance to try the three main embroidery stitches: satin stitch, outline stitch and French knot. All levels are welcome, from beginner to more experienced. Limited places available - advance booking essential!
